PROFILE

I have experience with MS Office (Word, Excel, PowerPoint, OneNote) and web design using HTML, CSS, JavaScript, WordPress, and Shopify. I am skilled in graphic design canva Pro and video editing using capcut. I can install and manage Windows, macOS (Catalina, Monterey), and Linux. I also have knowledge of digital marketing, especially social media management. I am a quick learner and can easily adapt to new technologies and environments.

WORK EXPERIENCE

Web Development

Feb 2024 - Present

- Designed and developed responsive websites using HTML, CSS, and JavaScript.
- Collaborated with clients to understand their needs and delivered tailored solutions that align with their brand and goals.

UX Designer

Aug 2022 - Feb 2023

- Created user-friendly layouts, conducted user testing, and developed wireframes and prototypes using Figma.
- Conducted user testing through surveys, interviews, and usability studies to gather valuable feedback and optimize designs based on real user needs.

Graphic Designer

March 2020 - Jan 2021

- Designed logos, brochures, social media graphics, and digital assets that effectively communicated brand messages and enhanced visual appeal.
- Used tools like Adobe Photoshop and Canva to produce high-quality, professional designs with attention to detail and creativity.
